

HORGANS

Care Instructions

Mesa Outdoor Coffee Table

This table features Centostone; a dense, ceramic-like material that's harder, more durable, and resistant to heat, scratches, and moisture.

Cleaning is simple: use a sponge with lukewarm water and mild detergent.

Mesa Outdoor Sofa and Chair

The cushions are coated with a water-repellent finish to resist light moisture.

After a rain shower, simply shake off water and wipe clean. However, they're not fully waterproof, so store indoors during heavy or prolonged rain.

Daily cleaning:

- Gently brush off surface dust.
- Rinse or soak fabric in water.
- Wash with diluted neutral detergent (1:5 ratio), under 30°C.
- Rinse thoroughly; air dry naturally.

Deep cleaning (for stains):

- Prepare as above.
- Spot-clean with diluted bleach (1:50). Test a small area first.
- Soak stained areas for 5–10 minutes if needed.
- Rinse and air dry.

Care tips:

- Use soft brushes or white fiber towels.
- Avoid heat, oil, and strong bleach.
- Do not soak inner cushion cores.
- Machine washing is possible—gentle mode, under 30°C.
- For wrinkles, use a low-heat iron briefly.
- Store cushions during extreme weather to extend lifespan.
